SUMMARY

Final-year CSE undergraduate (CGPA 3.57/4.00) who builds complete products: Flutter apps on Node.js and Firebase backends, React/Next.js and Django web apps, and AI features in real user flows. Competitive programmer with an ML paper accepted for publication.

EDUCATION

B.Sc. in Computer Science & Engineering — 2022 – Present
International Islamic University Chittagong (IIUC) — CGPA 3.57 / 4.00
Coursework: Data Structures & Algorithms, Databases, Operating Systems, Computer Networks, OOP, Software Engineering

HSC Hazera Taju Degree College, GPA 5.00 · **SSC** Chandgaon NMC Model High School, GPA 5.00 — 2017 – 2019

TECHNICAL SKILLS

Languages	Dart, JavaScript, TypeScript, Python, C, C++, Java, SQL
Mobile	Flutter (Android, iOS, Web), Riverpod, Provider, GetX, GoRouter, Hive, sqflite, Google ML Kit
Web & Backend	React, Next.js, Node.js, Express, Django REST Framework, REST APIs, JWT, Tailwind CSS
Databases & Cloud	MongoDB, PostgreSQL, SQLite, Firebase (Auth, Firestore, Admin SDK)
AI / ML	Gemini API, Hugging Face Transformers, PyTorch, scikit-learn
Tools	Git, GitHub, Jest, ESLint, Vite, Postman, Linux

PROJECTS

OsudSheba — AI Medication Adherence App — GitHub
Flutter · Riverpod · Node.js · Express · Firebase · Gemini API · Next.js · TypeScript

- Built a bilingual (Bangla/English) app, ~16.7K lines of Dart in 11 feature modules, with Riverpod, GoRouter and Hive.
- Designed prescription scanning: on-device OCR plus an Express API calling Gemini 2.5 Flash for structured dose data.
- Secured the API with Firebase auth, subscription middleware, rate limits and HMAC-verified webhooks.

Echorithm — Personalized News Aggregator — Team of 3 · GitHub
React · Django REST Framework · MongoDB · Hugging Face Transformers

- Aggregated three news APIs behind a Django REST API with JWT auth and saved user preferences.
- Added NLP: zero-shot categorization, summarization (BART, T5 fallback), entity recognition and sentiment.

AccessWatch — Flood Access Field App — GitHub
Flutter · Python · GeoJSON · Satellite (SAR) data

- Flutter app on a NISAR flood analysis: ranks cut-off communities, compares routes, builds mission cards for field teams.

Attendance Management System — GitHub
React · Vite · Express · MongoDB · Jest

- REST API for student records, attendance logging and summaries, with Jest unit tests on the attendance logic.

Transportation Management System (IIUC) — GitHub
Flutter · Firebase Auth · SQLite · GetX

- Campus bus app with an admin panel for routes and allocation, Firebase login and local storage; shipped as an APK.

RESEARCH

Fairness-Aware Calibrated Gradient-Boosted Models for Leakage-Safe Chronic Kidney Disease Screening and Staging in NHANES — accepted for publication

CERTIFICATIONS

ASP.NET Core Full Stack — CPS Academy	Ongoing
Mobile App Dev with Flutter — Ostad	2025
Android App Dev with Flutter — EDGE	2024
Web Development Basics — BohuBrihi	2023

LEADERSHIP & ACTIVITIES

Press & Publication Secretary, IIUC Computer Club
Competitive Programming — IIUCCPS — 2022 – Present
Languages: Bengali (native), English (professional)
